Solve Using the Trace Method

Use the _Solving Equations Using the Trace Method (2)_ applet to solve the following equations:
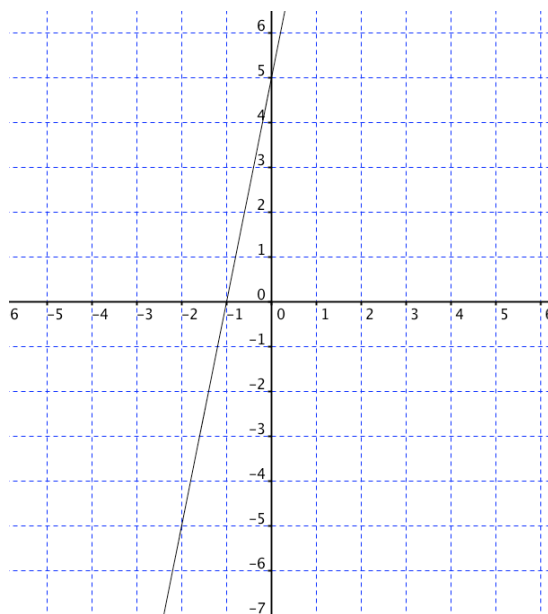

Predict the solution using the graph. Solve for x. Check your solution with the tool. Record all the steps of the solution.
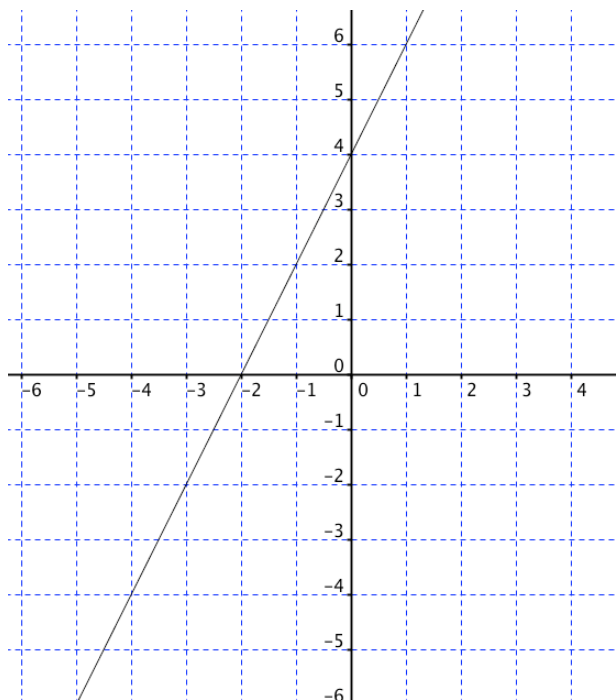

1. $3x + 2 = 5$

2. $-2x + 4 = -2$

3. 4x -5 = 3

4. −x + 3 = -3
